ecosenses Air Cleanse is a 100% natural disinfectant. Using thyme extract as an active ingredient, Air Cleanse eliminates 99.99% of viruses, bacteria, and fungi. Air Cleanse keeps your air and surfaces sanitized. Ideal for all venues and safe for all.

Benefits to you:

- 🌿 All-natural alternative to traditional chemical and alcohol-based disinfectants
- 🌿 Safe for frequent, long-term use
- 🌿 Disinfects without leaving choking chemical and antiseptic smell
- 🌿 Reduces unwanted microbial growth

ecosenses solutions are made from natural ingredients and are specially formulated to be safe for children, pets, and our planet.

- 🌿 **pH-neutral** solutions that will not damage surfaces and delicate fabrics
- 🌿 **100% biodegradable**, thus more environmentally sustainable
- 🌿 **Non-toxic, no alcohol, and hypoallergenic** for additional safety

AN INNOVATION BY **ecosoft**^T

Canada – EcoLogo The EcoLogo label means a product is safer for human health and the environment. A widely recognized eco-label in North America, EcoLogo certifies products that have less of an impact on the environment because of how they are manufactured, consumed and disposed of. EcoLogo products have lower carbon emissions and minimise chemical exposure.

Effectively eliminates

Air borne and surfaces:

- Viruses
- Bacteria
- Fungi

Directions for use

Spray the product into the air or onto surfaces for regular disinfection. For best results, let the product settle for 5 minutes before using **ecosenses** Air Nourish to freshen the air.

No rinsing is required.

Ideal for

- Restaurants, cafes, and clubs
- Hotels, apartments, and offices
- Children corners and shared areas
- Washrooms and shower areas
