ecosenses Air Nourish “nourishes” the air and improves air quality using a proprietary blend of micronutrients. A natural odour eliminator, bringing you clean, fresh and safe indoor air.

Benefits to you:

- 🌿 Healthier indoor environment by improving indoor air quality
- 🌿 Provides long-lasting odour control
- 🌿 Eliminates odour from source rather than simply masking odour
- 🌿 Improved alternative to traditional chemical cleaners

ecosenses solutions are made from natural ingredients and are specially formulated to be safe for children, pets, and our planet.

- 🌿 **pH-neutral** solutions that will not damage surfaces and delicate fabrics
- 🌿 **100% biodegradable**, thus more environmentally sustainable
- 🌿 **Non-toxic, no alcohol, and hypoallergenic** for additional safety

AN INNOVATION BY **ecosoft**^T

Canada – EcoLogo The EcoLogo label means a product is safer for human health and the environment. A widely recognized eco-label in North America, EcoLogo certifies products that have less of an impact on the environment because of how they are manufactured, consumed and disposed of. EcoLogo products have lower carbon emissions and minimise chemical exposure.

Effectively controls

- Food smells
- Smoke and cigarette smells
- Organic smells
- Rubbish and garbage smells
- Indoor air pollutants

Directions for use

1. For odour removal, spray liberally into the air or on odour causing areas
2. For indoor air freshening and maintenance, spray into the air regularly.

Areas of application

- Common and living areas
- Offices
- Kitchen and food preparation areas
- Bathrooms and toilets
- Garbage and office areas
